

## What is a Golden Girls Home?

A Golden Girls Home is a home shared by mature adults. Sometimes it's two women sharing an apartment; sometimes it's four women and men sharing a house. Each house develops its own culture and style, and each member makes the house feel like home. Sharing is a nice thing to do (remember we were taught this as children). Sharing a living space is economical, environmentally friendly, and reduces the sense of alienation and isolation.

“Our mission is to bring together a **homeowner** and a **housemate** to create a comfortable living arrangement for both.”

### **The Homeowner**

You love your neighborhood and your home and don't want to move.

You're living alone now, and your house is larger than you really need and may be hard to manage.

You miss having someone around to share a cup of coffee or go for a walk, someone to share happy moments with, or to talk to in a crisis.

You are NOT ready to move in with your kids or move to a retirement community!

### **The Housemate**

You're a wonderful someone, just like the homeowner, but who doesn't own a house or condo. You're looking for a nice, stable place to live at a reasonable price.

Perhaps you've moved to a new area and want to immerse yourself in the community.

You would love to find a family-like setting where you can live with other like-minded people who share your interests.
