Return to Rural, Return to Roots

Life in the city isn't what it used to be

Many Canadians are fed up with city life and are moving to rural areas in ever-increasing numbers.

Why are they moving?

Well, when you get backed into a cramped and crowded corner, it's only natural to seek out more space. Not only that, but embracing new entrepreneurial opportunities and an affordable cost of living is a big selling point for smaller communities—something that the Peace Country offers in abundance.

Unfortunately, the qualities that make the region so special are becoming harder and harder to find in big cities...

The Challenges of Urban Life

Inflation: Residents grapple with the relentless rise in living costs, making daily expenses a constant battle.

Crime Rates: An uptick in urban crime creates an unease that shadows city living.

Housing Prices: Skyrocketing costs for cramped spaces make the dream of comfortable living and family planning impossible.

Overcrowding: The struggle for personal space is real in the city's crowded streets and packed public spaces.

Nature Deficit: The concrete jungle overshadows green spaces, leaving a craving for natural surroundings unfulfilled.

Stressful Lifestyles: The fast-paced urban hustle leaves little room for relaxation, putting mental well-being on the line.

Why Choose the Peace Country?

Belonging: Peace Country welcomes everyone with open arms and is proud to promote a sense of community and belonging that is rare to find elsewhere.

Housing Development: The region offers diverse housing options, from spacious single-family homes with large backyards to cozy rural properties, allowing you to enjoy both luxury and farm life.

Quality of Life: Enjoy a high quality of life with access to fresh, locally sourced food, pure water, and a lower cost of living compared to urban areas.

Natural Beauty: Experience breathtaking landscapes, from the vibrant Aurora Borealis to the serene Peace River and ski hills.

Adventure Opportunities: Whether you're into skiing, paddling, hiking, or simply exploring, Peace Country offers year-round activities for all ages and interests.

Self-Sufficiency: With a rich heritage of self-sustainable living, the region promotes a lifestyle where you can grow your food, preserve your harvest, and enjoy the fruits of your labor.

Education and Innovation: Strong partnerships with post-secondary institutions like Northern Lakes College and Northwestern Polytech enhance educational opportunities and foster innovation.

Community Spirit: The region thrives on community spirit, volunteerism, and collaboration, ensuring that businesses and residents support each other.

Connectivity: Despite its rural charm, Peace Country is well-connected with modern infrastructure, including highways, railways, and fiber optics.

Investment Opportunities: With strong economic foundations in agriculture and oil & gas, and forestry, plus robust incentive programs, Peace Country is ripe with opportunities for new and existing businesses.
