Subject: RE: [External] Northern Transportation Advocacy Bureau: Request for Tour of SiteC - Fort St. John

Hi Mary Joan,

We are willing to provide a tour for the NTAB on Saturday, October 14.

Site C is a busy construction site and safety is the top priority. Please share with those who are planning to attend the tour. During the tour, we require that everyone wears steel-toe boots with a 6" back when we're off the bus, walking on the construction site. If they don't have boots, they will have to stay on the bus. Also, everyone must wear either a long-sleeved shirt, or a coat/jacket. We will provide the rest of the PPE – hard hat, high-vis vest, safety glasses, etc. for the tour.

We will need you to supply, 48 hours prior to the visit, a list of the names of everyone who will be on the tour. All tour participants must have with them valid, government issued, photo ID. An Alberta Driver's Licence is a good example.

As discussed, we would meet your group's bus at a location in Fort St John and then your group would board our bus and we will proceed to Site C, which is about 10 minutes from town. We prefer to meet at the [Pomeroy Hotel & Conference Centre](#) (11308 Alaska Road, Fort St John, BC) parking lot – it has lots of space and is easy to get to.

When you have a plan for when you expect to arrive in Fort St John, please advise myself and Kate O'Neil. Please let me know if you have any questions.

Thanks,
Bob
